

SAFETY DATA SHEET

SECTION 1 - PRODUCT & COMPANY IDENTIFICATION

Product name:	Tra	nsFerm [®] CV5	5				
Product code:		23-54					
Description:			e fresh liquid yeast.				
Product use:		el ethanol proc					
Supplier name and address	Lal	Lallemand Biofuels & Distilled Spirits					
	612	0 West Doug	glas Avenue				
	Mil	waukee, WI 5	3218				
Information telephone: Emergency telephone:		1 (414) 393-0410 Contact your local doctor or hospital					
SECTION 2- HAZARD IDENTIFIC	ATION						
Classification of substanc	e or mixture						
Not a hazardous substance							
GHS Label elements, including precautionary statements. Not a hazardous substance or mixture							
Hazards not otherwise classified or not covered by GHS None							
SECTION 3 – DATA ON COMPO	NENTS						
SECTION 3 – DATA ON COMPO	NENTS

SAFETY DATA SHEET

SECTION 5 – FIRE FIGHTING MEASURES

Extinguishing media Suitable extinguishing media		Use appropriate medium for underlying cause of fire		
Special hazards arising from substance or mixture		None		
Advice for firefighters		Wear self-contained breathing apparatus (SCBA) when exposed to confined or enclosed fires.		
Further information		No data available		
SECTION 6 – ACCIDENTAL RELEASE	MEASURES			
Personal precautions, protective equipment and emergency procedures Environmental precautions		Use appropriate personal protective equipment as outlined in Section 8 Do not let product enter the environment		
Methods and material for containment and cleaning up		In the event of a spill, clean area with disposable absorbent pads or sheets. Spilled or discarded yeast at an ethanol production facility should be disposed of by flushing into the beer-well where it can be thermally inactivated. Residual yeast can be inactivated by cleaning with a solution of 2 vol% household bleach (1:50 dilution) in water or a 1-2 % caustic solution.		
Reference to other sections		For disposal see Section 13		
Precautions for safe handling Conditions for safe storage, including any incompatibilities	Keep containers closed when not in use. Wear protective equipment described in Section 8. Wash thoroughly after handling. Do not handle this material if you have known allergies or otherwise physical reaction to yeast. Store at a refrigeration temperature of 33.8-39.2°F or 1-4°C. Keep containers closed when not in use. Respiring yeast may naturally generate carbon dioxide. Ensure adequate ventilation in storage areas where packaged yeast is stored. Over exposure to carbon dioxide may cause asphyxiation.			
SECTION 8- EXPOSURE CONTROLS /	PERSONAL PROTE	CTION		
SECTION 8- EXPOSURE CONTROLS / PERSONAL PROTECTION Control Parameters No applicable occupational exposure limits Appropriate Engineering controls Emergency eye wash fountains should be available in the immediate vicinity of use/handling. Respiratory protection Not required under normal conditions of use Skin protection Wear latex or other impermeable gloves. Eye protection Safety glasses with side shields or goggles				
SECTION 9- PHYSICAL & CHEMICAL I	PROPERTIES			
Physical state: Appearance: Odor: pH: Partition coefficient: Viscosity: Solubility in water:	Liquid Tan Mild savory odor No data available Not applicable. Not applicable. Suspends in wate			

SAFETY DATA SHEET

SECTION 10 - STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possible hazardous reactions: Conditions to avoid: Incompatible materials Hazardous decomposition products: None known Stable under recommended storage conditions. None High temperatures None None

SECTION 11- TOXICOLOGICAL INFORMATION

Acute toxicity	No data available
Skin corrosion/irritation	No data available
Serious eye damage/eye irritation	No data available
Respiratory or skin sensitization	No data available
Germ cell mutagenicity	No data available
Carcinogenicity	No data available
Reproductive toxicity	No data available
Specific target organ toxicity single exposure	No data available
Specific target organ toxicity repeated exposure	No data available

SECTION 12- ECOLOGICAL INFORMATION

Toxicity Persistence and degradability Bioaccumulation potential Mobility in soil Other adverse effects No data available No data available No data available No data available No data available

SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal should be made in accordance with Federal, State and Local regulations. Yeast in liquid and solid wastes must be inactivated; this can be accomplished by thermal treatment at 176°F (80°C) for 2 minutes. Spilled or discarded yeast at an ethanol production facility should be disposed of by flushing into the beer-well where it can be thermally inactivated. Residual yeast can be inactivated by cleaning with a solution of 2 vol % household bleach (1:50 dilution) in water or a 1-2 % caustic solution.

SECTION 14- TRANSPORT INFORMATION

Not a DOT, TDG (Canada) IMDG or IATA controlled material

SECTION 15 – REGULATORY INFORMATION

Product is classified as NIH (National Institute of Health, US) Risk Group I. This product does not meet the definition of a Hazardous material given in the U.S. Occupational Safety and Health Administration's Hazard Communication Standard.

SECTION 16– OTHER INFORMATION

SDS Date of Preparation: October 2020

The information herein is based on current available data and is believed to be correct.
